- 2 YEAR MANUFACTURER PREMIUM REPLACEMENT WARRANTY
- OPTIONAL RECESSED CEILING TRIM KIT, UNIVERSAL LEARNING REMOTE, WIRELESS 12V/5V TRIGGER KITS, IN-WALL RF WALL SWITCH

HOME2

A Built-In Infrared and Radio Frequency Receiver supports your Screens On-wall or In-Ceiling application for a clean appearance.

Standard built-In Low Voltage Controller (LVC), a 12V trigger port can be connected to your projector Trigger point; this enables synchronization between the drop/rise cycle of your screen and the power cycle of the projector. You could extend this port using a standard RJ45 connector and CAT-5 cable to anywhere in the room. Or mount your Wall-switch like a regular light Switch.

Home2 Series screens come with black 2"-30" top masking border with side and bottom masking. To enhance the format of your presentation to avoid projection overshoot.

You can also adjust the screen's vertical drop/rise limits for optimal visibility. Please contact our Tech-support for more information about this feature.

Sliding Bracket provide easy alignment with wood studs for easy wall/ceiling installations.

Optional 11"x 4" and 12"x 8" L Brackets can allow more flexibility when installing the screen away from wall. Please contact your reseller or visit shop.elitescreens.com for accessory parts.

Optional Elite Screens ZR800D Universal Learning Remote Control, allows one-touch regulation over your entertainment system managing up to 8 devices simultaneously. Each unit has a simplified programming option with learning function to accompany 800 pre-programmed TV/DVD/VCR codes.

Elite Screens MaxWhite Fiber Glass Screen Material is durable for daily use and Easy to Clean. It has wide viewing Angle (160°) with 1.1 Gain, for commercial or home theater presentations.

MaxWhite Fiber Glass Screen material is made with a black backing to prevent light penetration along with a textured pattern to eliminate Moiré or "hot spotting".
