

EZFRAME

- TRUE-FLAT TENSION SCREEN SURFACE
- BLACK BACKED MATERIAL ELIMINATES LIGHT PENETRATION
- ANODIZED BLACK ALUMINUM 2.36" THICK FRAME WITH BLACK VELOUR SURFACING
- 4:3 AND 16:9 ASPECT RATIOS AVAILABLE
- AVAILABLE IN CINEWHITE (1.1 GAIN WHITE), CINEGRAY (1.0 GAIN GRAY) & POWERGAIN (1.8 GAIN WHITE) WITH THE OPTION OF REGULAR OR PERFORATED ACOUSTIC MATERIAL
- EASY TO ASSEMBLE AND INSTALL IN MINUTES
- SLIDING WALL MOUNTS TO ENSURE THE INSTALLATION IS PROPERLY CENTERED
- 2-YEAR PARTS AND LABOR MANUFACTURER WARRANTY

Elite Screens Stocks all sizes from 84" to 200" at 4:3, 16:9 and 2.35" Ratio.

Choose from 6 types of material, Standard or Acoustic, CineWhite, CineGrey, and PowerGain.

CineWhite Screen Material has a wide viewing Angle in 1.1 Gain, suitable for most applications including commercial presentations and home theater viewing.

CineGrey Material is best for those who using low contrast ratio (LCD) projectors with a need to increase contrast ratio to improve picture black levels.

PowerGain Enhances the color reproduction with low output/high resolution projectors or with the presence of ambient light.

Mount your standard sliding aluminum bracket to the wall, then Simply hang your screen as easy as a picture.

Easy snap-on frame tension system, makes it quick and easy to mount your screen material to your frame.

"I found that it had a decent reflectivity to it, but didn't suffer too much from hot spotting (which obviously you would expect from a lower gain screen), nor did it have any sparkles or other anomalies to it. Elite certainly has a good idea here. Good performance, good build quality, and good features in a screen, for a lower price point." AV Science, NY

By comparison, the Firehawk® screen tends to reject ambient light from the side, a little better than the ezFrame by Elite. (All's fair - an equivalent Firehawk fixed wall projector screen is much over double the price. Color was virtually identical, but yellows did appear just a touch stronger than on the Firehawk®. This was very close and not an issue. Overall color was very good.

With a 100" 16:9 Elite ezFrame screen selling for about half of a Da-Lite Cinema Contour with ProTrim (their fancy flourish border), and barely a 1/3 of a Stewart Luxus Deluxe, it allows home theater people to own an attractive looking fixed wall screen, with good performance, at a price that simply isn't available from the larger established brands. Art Feirman / Projectorreviews.com
